CALL FOR BIDS - INNOVATION AWARDS

The 2025 edition of Texprocess Americas now cordially invites exhibiting companies to submit their most recent developments for the Texprocess Innovation Awards. The Texprocess Innovation Awards will be presented to honor exceptional performance in the fields of research, new materials, products and technologies as well as applications. The awards have been designed to make cutting-edge developments visible, promote unconventional thinking and intensify dialogue between researchers, manufacturers, and users.

An innovation must have been discovered or invented, developed, introduced, used and, last but not least, institutionalized. Innovations submitted for the contest can be at any stage of development. To reflect these stages, the Texprocess Innovation Awards are presented in the following categories:

- New Concept
- New Technology
- New Material
- New Application
- New Product
- New Approaches to Sustainability & Circular Economy
- New Technologies around Sustainability & Recycling
- New Technology & Digitalization

Registration to participate in the Texprocess Innovation Awards contest is done online by completing the application on the next page. Once the application process has been completed, the winner will be determined by a jury of experts who will assess the contest entries submitted. The jury's decisions will be based on a simple majority of votes cast and will be final for all participants. The jury will not provide reasons for not selecting individual entries.

Winners will receive:

- A special recognition during Texprocess Americas.
- Acknowledgement on www.texprocessamericas.com and on the Texprocess Americas social media channels.
- Publishing through independent trade media (print and online).
- The right to use the Texprocess Innovation Awards 2025 logo (word and figurative mark in a file form) in publications.
- An official award.

Deadline for submission is **Friday, March 7th, 2025** via the application form on the next page.
